Dear Emory,

Relet 12: Not 226. Used in 1996.

You did skip a second page but not the one you sent. The copies are in the record now.

Sorry I appear to have been unclear on lily-gilding. What you provided permitted me to add to an affidavit addressing official claims to due & diligence and good faith and handling requests in order of receipt.

Your non-request was given more expeditious handling than actual requests under FOIA, especially mine.

It is very helpful in perfecting the record on these spurious claims and in establishing that they are spurious.

C.A. 75-1996 is on the King evidence. The current question is of compijace, practise, etc.

Many thanks,
